Complete Setup & User Guide for WarjoBOT Android

Smart Automated Clash of Clans Farming — No Root Required

CRITICAL INFORMATION BEFORE STARTING

Welcome to WarjoBOT! This app is a state-of-the-art intelligent automation bot for Clash of Clans running natively on Android devices without requiring Root permissions. WarjoBOT leverages on-device Google ML Kit Text Recognition for instant OCR loot scanning, paired with human-like interaction algorithms to keep your game account fully secure.

1. System Requirements & Compatibility

Component	Minimum Requirement	Recommended
Operating System	Android 9.0 (Pie) or higher	Android 11, 12, 13, 14, or 15
RAM Memory	3 GB RAM (min. 1 GB free RAM)	4 GB – 8 GB RAM
Root Access	NOT REQUIRED (100% No Root)	Standard Stock Android (No Root)
Screen Orientation	Landscape (matches Clash of Clans)	Aspect ratio 16:9, 18:9, 19.5:9, 20:9
In-Game Language	English	English (CoC Settings → Language → English)

2. Installation Steps & Android Permissions

Step 1: Download Official APK File

Download Warjo_Bot_v1.5.5.apk directly from the official website: **https://warjostore.id/**. Do not download from unverified third parties.

Step 2: Enable Unknown Sources

Navigate to *Phone Settings* → *Security & Privacy* → *Install Unknown Apps*, select your browser and toggle permission to ON.

Step 3: Launch WarjoBOT & Grant 3 Core Privileges

Permission Name	Purpose in WarjoBOT	How to Enable
Accessibility Service	Enables automated, precise screen tapping and troop deployment without root access.	Go to *Phone Settings* → *Accessibility* → *Installed Apps* → *WarjoBOT Automation Service* → Enable.
Display Over Other Apps (Overlay Widget)	Displays the floating controller on top of Clash of Clans for real-time start/pause actions.	Tap allow when prompted, or go to *Settings* → *Apps* → *WarjoBOT* → *Display over other apps* → Enable.
MediaProjection (Screen Capture)	Captures screen frames for real-time OCR text recognition (reading available Gold/Elixir).	When pressing **Start** in the app, tap **Start Now** on the Android system confirmation dialog.

3. App Features & Tab-by-Tab Configuration

1. Minimum Loot Targets

Set minimum thresholds for Gold, Elixir, and Dark Elixir. WarjoBOT automatically skips bases that don't satisfy these values.

2. 'Gold OR Elixir' Condition Mode

© 2026 Warjo Store. All rights reserved. Confidential & Proprietary.

When enabled, the bot attacks as long as EITHER Gold OR Elixir meets the target.

3. Highlight Feature v1.5.5: Automated Wall Upgrades

Intelligent post-battle wall upgrading. Available modes: Do not upgrade, Upgrade using Gold, Upgrade using Elixir, or Upgrade using Gold & Elixir with smart safety buffer.

4. Smart Auto-End Battle

Ends battles immediately when troops have finished or when enemy loot is emptied, cutting battle time by up to 60%!

5. 4-Zone Spread Drop Attack Strategy

Evenly deploys troops along all 4 perimeter zones (25% per flank) for full collector harvesting.

6. Notch & Display Cutout Compensation

Enabled by default for modern smartphones (Samsung S24/S25, Xiaomi, Poco, Vivo).

4. Connecting Telegram Live Notifications

2-MINUTE TELEGRAM NOTIFICATION SETUP

Step 1: In Telegram, search **@BotFather** and send /newbot. Copy the **HTTP API Token**.
Step 2: Search **@userinfobot** in Telegram, press Start, and note your numeric **Id**.
Step 3: In WarjoBOT's Settings tab, paste your **Bot Token** and **Chat ID**.
Step 4: Send a /start message to your newly created bot once.

5. Account Safety & Troubleshooting FAQ

Question / Issue	Root Cause & Resolution
Accessibility service disables itself?	Android battery optimization is terminating background services. Go to *Phone Settings → Apps → WarjoBOT → Battery → Select 'No Restrictions'* and lock WarjoBOT in Recent Apps.
Black screen or bot fails to read loot?	Ensure you tapped 'Start Now' on the MediaProjection capture prompt and confirm in-game language is English.
How to activate official license?	Visit **https://warjostore.id/**. Enter your HWID to claim your 2-Day Free Trial or purchase instant renewal via QRIS.

Official Support: Website: https://warjostore.id/ | Telegram: **@warjostore**
Thank you for choosing **WarjoBOT** as your automated Clash of Clans farming assistant!
